F5D4074 Powerline Single Port A/V Kit

Powerline AV allows you to reliably transmit content from your Internet directly to your computer and other network devices through the electrical wires in your home. Transfer speeds of up to 200Mbps makes Powerline AV ideal for streaming media to your home entertainment devices such as gaming consoles and set-top boxes.

- Ideal for surfing the Internet and reducing online gaming latency
- Operating range: Up to 300m in wall powerlines
- Data speeds of up to 200Mbps • IEEE 802.3/802.3u
- **128-bit AES link encryption with key management**
- HomePlug AV-certified

Retail
\$139.99

F5D4075 Powerline AV+ 3 Port A/V Kit

Powerline AV+ has 3 ethernet ports which allows you to reliably transmit content from the Internet directly to multiple computers and other network devices through the electrical wires in your home. For areas in a home that are hard to reach by wireless connections, Powerline is the most reliable solution for providing secure Internet connectivity to these remote areas.

- Kit includes a 3 port adapter as well as a single port adapter
- Includes extension power cables for the optional placement of powerline adapter away from the electrical outlet
- Transfers data at speeds of up to 200Mbps
- 128-bit AES link encryption with key management
- IEEE 802.3/802.3u • HomePlug AV-certified

Russound®

CA4KIT1 - Multizone Controller Kit

Russound's new CA4 Multizone Controller Kit offers control of a four-zone, four-source multiroom audio system at an entry-level price. Designed for simplicity, the CA4 provides a slim profile chassis and elegant wire management solution for an attractive installation in either an entertainment center or equipment rack.

The foundation of the CA4 Kit is the new CA4 four-source, four-zone multiroom controller. Designed for easy installation and use, it features a rack-mountable 1U chassis, Class D digital amplifiers, an RS-232 port for connection to home automation and control equipment, a 12 VDC mute trigger input, and a 12 VDC trigger output. The CA4 also features source grouping, all on, all off, and "party mode." Systems are scalable to support up to two CA4 controllers linked to make an eight-zone system with four sources.

CA4 Controller

- Dimensions** 16.9" x 8.75" x 2"
- Weight** 6.9 lbs. (3.1kg)
- Power Supply** VAC 100V to 240V @50-60Hz 110W (Auto Select)
- Audio Source Inputs** 4
- Max Source Audio Input** 2.3 Vms
- Input Impedance** 50 kohms
- Wall Port Ports** 4
- Routed IR Ports** 4
- Common IR Port** 1
- Amplified Audio Zone Outputs** 4 speaker level (8 ohms)
- Line Audio Outputs** 2 (Fixed and Variable) (Zone 4 only)
- Watts per Channel** 15

CA4 Kit Contents

- (1) CA4 Controller, (4) CA4-KP Keypads, (1) CA4-WP Wall Port,
- (5) Almond keypad conversion plates, (1) CA-RC Remote control,
- (4) 845.1 Single IR emitters, (4) CAT-5 with (4) RJ45 connectors,
- (4) Source label sets, (1) Pair of rack ears, (1) Instruction manual

Native Lighting Control

Control Dimmers, Lamp Dimmers and Switches Directly from URC Remote Controls

Great "Single-Room" Solution

Native Control

No interface required when used with URC remotes. URC remotes control the dimmers and switches directly via RF. No additional parts are ever needed.

Easy Operation

Simply press-and-hold to re-program lighting scenes. Homeowners can change the lighting scenes as often as they like-all by themselves. No truck rolls or late-night visits required.

Scalable Solutions

Flexible entree into installing lighting control. Build a small system, one dimmer at a time. Low cost of entry: one dimmer and one URC remote is a lighting system that can "control the lights in the room you're in."

Your client will enjoy all of the benefits of lighting control. Lighting control can help save energy and associated energy costs, improve homeowner security and create comfortable ambiance.
